MESSRS. C. B. LITTLEFIELD & CO.

IN REPLY TO YOURS ASKING HOW CONSTITUTIONAL CATARRH REMEDY HAS SATISFIED OUR CUSTOMERS, WE WOULD SAY WE HAVE SOLD THOUSANDS OF BOTTLES AND HAVE NEVER HEARD ONE COMPLAINT AGAINST IT; BUT, ON THE CONTRARY, IT GIVES UNIVERSAL SATISFACTION, AND WE CONSIDER IT ONE OF THE BEST, IF NOT THE BEST CATARRH REMEDY IN THE MARKET. ITS LARGE SALE IS THE BEST EVIDENCE OF ITS INTRINSIC MERIT.

REPORT OF LIQUOR AGENT.

Having been chosen liquor agent at the last annual town meeting, I herewith submit my report.

The efforts put forth for the suppression of the sale of intoxicating liquors the past year have resulted in the disappearance of offenders from the town. My attention has several times been called to certain localities where it was suspected the law was being violated, but on investigation I have found no tangible evidence of wrongdoing on the part of those suspected. I have endeavored to obtain evidence from those who have felt it their duty to call my attention to supposed violations of the law, but in all cases have found that those who have been so persistent in their demands, have no evidence to sustain their convictions. I have, therefore, after investigation, declined to expend the town's money in an attempt to prosecute any person in the absence of any evidence on which to bring a suit. In the performance of my duties the past year, I have to say that the town has been put to no expense.

Respectfully submitted.

JOHN MORRISON.

ANNUAL REPORT
OF THE
SCHOOL BOARD OF THE TOWN OF SALEM,
N. H.

The school board of the town of Salem respectfully submit the following report of their doings, with such suggestions as they think necessary for the future welfare of the schools of the town, to the town for its consideration :

The schools of the town are in a good condition. The teachers have labored zealously for the good of the schools. They have endeavored to teach the pupils in a thorough manner, and the school board have sustained them, and we contend that any other method of teaching is a damage to the scholars. It is better for the scholars to learn a little and learn it thoroughly than to make rapid progress and know little of what they have studied. The order in the schools has been good ; without order progress must be slow and the school worthless. When a parent or guardian sends a child to school the authority to govern the child goes with the child, and the teacher has the same authority to correct him for wrongdoing that the parents would have over him at home. The school board hold the teachers responsible for the order in their schools, and will sustain them in all cases when they correct the scholars in a reasonable manner, and we expect the parents to sustain the teacher in all cases and to give her their aid in maintaining the order of the school. The teacher's position is one of responsibility ; her duty is not only to teach the children but to instill into their minds love for all that is good and abhorrence for all that is evil, and place them upon the right path to happiness, honor, and virtue,

that they may become useful citizens and a credit to the community in which they live. The needed qualification of a teacher is not only learning enough to teach school, but something more. The minds of children are easily molded and they will be influenced more or less by those with whom they associate, and as they are with the teachers a large part of the time for thirty weeks in the year, the teachers, if they do their duty, will try to plant in their minds the seeds of goodness, honesty, and truthfulness, which will bear fruit in after years. The town's money can never pay a teacher who does her duty to the children intrusted to her care. Taken as a whole, the parents of the children of the town have supported the teachers with kindness and respect ; harmony has prevailed and mutual respect has been the result.

There are some children of the town who do not fulfill the requirements of the law relating to school attendance. They are a trouble to the school board and an annoyance to the teachers. It does little or no good to talk with the parents.

The schoolhouses of the town are presenting a more attractive appearance and are becoming a credit to the town. If the town will continue to repair one or two of its buildings a year, they will all be in good condition in a short time. The school board would recommend that the wooden benches used for seats and desks in school No. 1 be removed and new seats and desks be provided for the school. Also, we would ask the town to raise the sum of \$150 for that purpose ; we would ask the town for \$150 to repair No. 6 building.

The winter term of school in schools in Nos. 5, 6, and 10 has been shortened on account of contagious diseases. The school board did not think it prudent to open them for teaching purposes until all danger from the diseases had disappeared. The number of weeks that the schools have been shortened this year will be added to the number that the town votes to have the ensuing year.

It seems needless for us to say anything to you about regular attendance, tardiness, or visiting schools. You know it is your duty to send your children to school and have them punctual and regular in their attendance ; and that you should take inter-

est enough in the schools your children attend to visit them and see for yourselves the way they are conducted, instead of gaining your information from irresponsible parties at the street corners, who are continually talking and who know nothing of what they are talking about.

Whole number of scholars who have attended school not less than two weeks, 289.
